## 2 PART LIST

(1)

## 3 IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions before using this product. Save these instructions for future reference. When using electrical appliances, basic precautions should always be followed to reduce breakage, risk of fire, electric shock and injury to persons including the following:

- To Avoid Fire Or Shock Hazard, This Unit Should ONLY Be Plugged Into A Polarized 120 Volt AC Outlet.
- Do not use this fan outdoors.
- Never use this fan unless it is fully assembled.
- Do not use the fan under the following conditions:
  - High temperature of over 104°F.
  - High humidity.
  - Steam filled room.
- Do not push finger or any object through the grill and do not touch the blade during use; especially be aware of children and infants during use.
- Be cautious that curtains or other objects are not sucked into the fan during operation.
- Do not spray the fan with insecticide, which will damage the surface.
- This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

**WARNING:** To Reduce The Risk Of Fire Or Electric Shock, Do Not Use This Unit With Any Solid-State Speed Control Device.

## 4 OPERATION

Control Panel:

Remote Control:

1. Insert the unit plug into a 120V AC outlet.
2. Power: Switch on or off the unit by pressing "On/Off" button.
3. After it is switched on, the unit will beep when you press any button on the control panel or remote controller.
4. Fan speed: Select the desired fan speed by pressing "Speed" button. There are three speeds – High, Medium, and Low. The LED lights on the control panel will show the status of fan speed.
5. The direction of the airflow is vertically adjustable by tilting the fan body.
6. Oscillation: Turn on or off the oscillation function by pressing "OSC" button.
7. Timer-off (up to 7 hours): Select the desired timer-off setting by pressing "Timer" button. There are three LED lights – "1", "2", and "4". The LED lights indicate the selected timer (hours). For example: when "1" and "4" light up, the selected timer is 5 (5=1+4) hours.

(3)

## 5 CLEANING THE UNIT

1. Turn the unit OFF and unplug the power cord from power outlet.
2. Clean unit with a moistened soft cloth only. DO NOT pour or splash water on the unit or use any abrasive type cleaner on it. Clean all external surfaces, especially the air intake grilles and air outlet.
3. Reposition the unit, plug power cord into power outlet and turn ON.

## 6 TECHNICAL SPECIFICATION

Model No.	SF-1283
Input Voltage	120V / 60Hz
Fan Blade Size	12 inches
Power Consumption	58W
Power Cord Length	63 inches

## 7 YOUR GUARANTEE

If this product is found to be faulty as a result of faulty materials or workmanship within one year from date of purchase, it will be repaired free of charge.

This guarantee is subject to the following terms:

- Sunpentown must be notified of the fault.
- Proof of purchase must be presented to Sunpentown's nominated representative.
- The warranty will be void if the product is modified, misused or repaired by an unauthorized person.
- The warranty after repair will not be extended beyond the original one-year period.
- All replacement parts will be new or reconditioned.
- Parts, which are replaced, become the property of Sunpentown.
- The warranty applies for the use of the product in the USA only.

What is NOT COVERED:

- Warranty does not include freight charges.
- Incidental or consequential damage caused by possible defects with this product.
- Damage to product caused by improper power supply voltage, accident, fire, floods or acts of nature.
- Failure of product resulting from unauthorized modifications to the product.
- Improper installation or failure to perform the necessary maintenance.

This GUARANTEE is in addition to your Statutory Rights
